

We are here to help all communities become more active, empowered and connected.

Any support you can give helps to make an amazing contribution to our work.

We invite our Supporters to share our vision – asking them to consider the possibilities of a better world, to help us empower people and leave the world a bit better than when we came into it; inviting them to share our ideals and to help make what was only a thought become a reality.

When you give MVA your Support, you help us to...

- **Support 1,000+ local charities** and community groups to deliver sustainable services and activities that help and enrich the lives of local people.
- Work with the voluntary and community sector to help them generate an **additional £6 Million** in external income.
- Deliver community engagement and development across some of our **most marginalised communities** – empowering them to tackle issues that are important to them and develop their agency to make their own lives better. **If you can think of an under-served community in Medway and Swale, MVA are likely working with them** – including: homeless, vulnerable migrants, sex workers, addiction and recovery, LGBTQIA+, People of Global Majority, People living with mental and physical difficulties, GRT, victims of modern slavery and individuals with justice system involvement.
- Facilitate collaborative working and to provide platforms **for charities to radically transform** how they operate – future proofing their services for those that need them the most.
- Provide befriending support that can provide **a lifeline for some of the most lonely and isolated people** in Medway & Swale.
- Work alongside communities experiencing the greatest health inequalities – **providing practical information on cancer screening and earlier diagnosis** as well as empowering people to develop their own interventions through our Community Power and Self-Organisation model.
