Whether you need consultancy, coaching or direct delivery support, I enjoy working collaboratively to help local leaders to achieve their goals – and if I can't help, I'll probably know someone who can!

As a proud member of the MVA team, my services have been developed to compliment those offered by MVA's amazing infrastructure support – so you may find me signposting to their existing support if I feel that it's a better fit for your needs; I'm also planning to make a donation to MVA for each new client I take on via the VCS Alliance.
